

Let's Sweeten Ionia County with Sweet Clover

We can make Ionia County the greatest Alfalfa, Hay and Dairy district of Michigan, through the use of Sweet Clover.

This is recommended by the U. S. Department of Agriculture and thoroughly tested out and approved by our own Michigan Agricultural College at Lansing.

SWEET CLOVER

Will grow on practically any land in Ionia County that is not acid.

Paves the way for 'Bumper' crops of Alfalfa and Red Clover.

Resists the summer drouths and is winter hardy.

Builds up light and poor soils to become hay producers.

Rejuvenates the worn-out and heavy cropped lands in our county.

Will save our farmers buying so much of fertilizers.

Some Ionia farms so poor that "Sorrel" has a struggle, will grow sweet clover, and then alfalfa.

Many farms can increase their hay products 100 percent by first using sweet clover.

Estimated that Ionia County has some 40,000 acres of unproductive lands, the greater part can be planted to sweet clover, and later made to produce, alfalfa, hay, hogs, and dairy products.

We supplied about 100 farmers with Sweet Clover this past season Free of Charge, and intend to do our part in making Ionia County, the dairy center of Michigan.
